Guidance for students on how to apply for CS Summer Internships 2021

The first step is to get to The University of Manchester Careers Service home page. On this page you will find the link to get to the CareersConnect site. This will be on the right hand side of the top banner.

As these opportunities are only available to current students of The University of Manchester, you will need to use the ‘Student Sign In’ Link. You may need to reset your password or register the first time that you log into CareersConnect.

All of the Summer Internships which are being run by the Department of Computer Science will be found here under the ‘Managed Opportunities’ tab.

You will be able to find all of the Computer Science internships by clicking on the purple ‘Search Managed Opportunities’
Go to the ‘quick search’ section on the left hand side and in the top box type ‘COMPSCI’. This will bring up all of the Summer Internships which are being run by the Department of Computer Science.

Click on the project that you wish to apply for to see the full details of the internship.

You can apply to up to 2 Internships by clicking ‘apply now’ and following the steps given.

To apply for internships, fill in all of the text boxes including the longer application boxes.
You will also need to upload a CV to apply for the internships.

You can click ‘Save as draft’ and come back to the application at any time, so long as the deadline hasn’t passed.

Don’t forget to click ‘Submit Application’ once you are happy.
