***Questions 1 - 30
contain Multiple
Choice Questions
and are restricted***

31. Please reflect on your experience of applying agile practices within the team project. Provide a clear and concise description of the following, using examples:

- The agile practices you applied, and the extent to which they were appropriate to the project.
- The benefits and drawbacks of your approach to the project.
- The way in which you improved your approach during the project, and/or could improve it in the future.

(20 marks)
